## RELAPSE IN THE STREET

STOCK EXCHANGE REVERTS TO DULL AND APATHETIC MOOD.

Sugar and Jersey Central Enjoy Temporary Spurt-Steel Stocks Weak -Local Trade is Expanding Rapidly.

At New York, yesterday, money on call was easy at 1%02 per cent.; last loan, 2

Prime mercantile paper, 31/2014 per cent for demand and \$4.84% for 60 days; posted rates, 4.851/2 and \$4.881/2; commerciai bills,

Silver certificates were 60@61c; Mexican dollars, 471/2c. The stock market relapsed again, yesterday, the reactionary condition showing the same apathy and hesitation which characslight fillip which gave an appearance of some animation and strength last week There were times yesterday when stocks were offered quite freely and in considerable variety, and the entire absence of demand made prices vulnerable to the efforts by professional bears to get them to a lower level. The actual news of the ing general in Wall street that last week's erators on a large scale. While that deit failed entirely to attract any additional tinued at a very low ebb. There was some speculation in Sugar during the day, based that the quarterly dividend would be declared yesterday, but it was announced deferred until to-day. Intimations were committee had already determined on a 11/2 per cent. dividend for the quarter, maintaining the same ratio as the last dividend. The price was run up to 119% by the rumor, but later fell back below Saturday's price, closing a shade off on the day. The Whitsuntide holidays in London and on the continent left the market without any index of foreign conditions. Some sentimetal depression was caused, however, by the delay in the ocupation of Pretoria, and by the suggestions of money market difficulties in Berlin. The bears professed some uneasiness, also, over possible comlications in the far East. The closing of he Illinois Steel Company's mills in South Chicago made the steel stocks especially weak early in the day, but the tone of the group became steadler in the late weakess of the market. A rise of 3 points in New Jersey Central caused a temporary hardening of the coalers, but it did not hold. The heavy loan expansion of the banks disclosed by Saturday's bank statement, bringing the loan item to the largest figure in the history of the clearing house was unexplained by news of any special transaction. In this connection discussion was caused by the dispatch from Berlin

to the Associated Press reporting a project

German financiers to introduce the

nperial 3 per cent, bonds on the Amer-

can market, owing to the great abundance

of capital in the United States. The Treas-

ury Department's estimate of amount of

noney in circulation on June 1, shows an

ncrease for the United States of \$14,162,408

for the month, in spite of the gold exports

of over \$10,000,000 and the taking up of

the treasury surplus of nearly \$5,000,000.

The prospect of an early resumption of

gold receipts from the Transvaal, the ex-

pectation that shipments will soon be re-

ceived from Cape Nome and the Klondike,

and the high rate of production reported

by American mines arouses discussion as

to the future effect on prices of this large

supply of money metal. The small bro-

kerage failure announced during the day

The bond market was dull and irregular.

Total sales, at par value, were \$1,189,000. United States old fours, coupon, declined

CORN LED CHICAGO MARKETS. WHICH HAD A STRONG TONE.

Wheat Up a Little on Crop Damage Reports-Oats Dull and Higher-Provisions Up and the Market Active.

CHICAGO, June 4.-Light country acceptances to Chicago bids and good shipping demand resulted in a strong corn market to-day, July closing 1/6%c higher. Wheat was helped by corn and some damage claims from the Northwest, July closing %@%c higher. July oats closed %c better and provisions strong, 10@221/2c im-

The corn market, while not active to any extent, developed sufficient strength during the session to aid the struggling prices of other commodities. Country acceptances of Chicago bids were an important factor, as they were much smaller than usual of late. Besides this, the cash people did an excellent business, much of it for direct shipment, despite higher lake rates and the holiday abroad. Charters were at least 400,000 bu, it was asserted. Shorts were compelled to cover, aiding in the advance. Local receipts were 506 cars. July opened a shade under Saturday, at 374@37%c, and sold up to 38c, at which it closed, 1/2%c

The wheat trade was dull. The market opened easy, July 1/8c depressed, at 66%@ 661/2c, under the influence of rains Sunday in the Northwest and the general speculative duliness. More rains were predicted for the Dakotas and neighboring territory, and the Kansas crop was advertised as prospectively the largest on record. But the market got no lower than the opening figures, as there were other considerations, chief of which were the corn strength and damage claims from the Northwest. From the country mentioned there were numerous complaints that the rains had come too late to be of the fullthat general rains alone could preserve the crop from, widespread injury. Added to these bullish tidings were the heavy decrease on passage and an improved cash business. July slowly advanced to 66%c, at which the market closed, 1/61/4c over Sat-urday. New York reported 17 loads taken for export. Primary receipts were 1,033,000 bu, compared with 1,029,000 bu last year. Minneapolis and Duluth reported 925 cars, against 757 last week and 884 a year ago Local receipts were 43 cars, one of contract grade. Clearances, at the seaboard, were equal, in wheat and flour, to 629,000 bu The oats market was dull. At times there was nobody in the pit at all. The corn strength, however, sustained the market, such as it was, and the finish was firm. July sold between 21%c and 21%c, closing %c higher, at 21%@21%c. Local receipts were 328 cars.

The provision market was strong, and at times it was active. Hog receipts were large, but packers reported that they had to pay good prices for them, all the same There was a better outside demand, packers were fair buyers, and shorts covered moderately, while offerings were not free July pork sold between \$11.05 and \$11.30 closing 221/2c over Saturday, at \$11.271/2; July lard between \$6.62\\@6.75, closing 10c higher. at \$6.721/2@6.75, and July ribs between \$6.50 and \$6.65, with the close 171/2@20c up, at \$6.65. Estimated receipts to-morrow-Wheat, 75 cars: corn. 700 cars: oats, 410 cars; hogs. 25,000 head.

WOMEN SHERIFFS.

Indianapolis Women Create a New Record in Official Capacity.

To the Editor of the Indianapolis Journal:

Under the above heading the statement is made that the wife of the sheriff and matron of the jail had lately taken two prisoners to the Reform School, and that they were the first women to act in the capacity of deputy sheriffs. Our friends of the capital city are just thirty years behind the times. In the early part of 1870, when the Wayne county seat was located tenced a young girl who had pleaded guilty to theft to two years in the Wayne county Prison for Women, which, through his influence, largely, had just been established Friendless. Mrs. Rhoda Coffin and Mrs. Sarah Iliff, nee Davis, were made deputy sheriffs and given official warrant to take lowed from the courthouse to the depot in Centerville by a large crowd, and, as the train was two hours late, they were the center of attraction during all that time. Indianapolis will have to hustle to get

The Fatness of Kansas.

To the Editor of the Indianapolis Journal: Recently I saw a letter to James Mc-Topeka, Kan., reading: "Please bring with you five good harvest hands. I have 600 acres of the finest wheat harvest ever in Kansas. It will average quite twenty-five bushels to the acre. Will pay top prices-\$2 to \$2.25 per day-with three square meals and two lunches. About twenty to twenty- be most imperatively needed. There are five days' harvesting. seat, will soon be the largest fresh-water artificial lake in the world and mid-continent pleasure resort. During this spring large numbers of thrifty north Missour farmers have bought farms hereabout, and are moving thereon. Central and northern Kansas will soon become as the "Garden of the Gods," unsurpassed on this continent, with its six to eight feet deep of strong, rich soil, over one hundred feet deep of sand, eternally moistened by the melting floods, underflow from the mighty Rockies. Our harvest will open about June 20, when the largest army of harvest hands ever seen in one State in this Union will prairie harvesting. The Santa Fe, the Rock Island, the Missouri Pacific and other large railroad lines have arranged for reduced harvest hands' rates of fare to bring the thousands of hands needed here, and past season was unusually favorable. With and other central and north Kansas towns. committees will attend the incoming harvesters and send them to points where hundred and three hundred acres of harvest to a farmer here is an ordinary occurrence.
